

The Hughes-Jones Centre

A new and unique horseback riding facility on Prince Edward Island focussing on the lessons horses and a horse's environment can teach people.

Our goal is for you to feel good about yourself and your accomplishments when you leave HJC and our programs reflect that goal.

No time-lines or prerequisites required, we make horses accessible to you and your lifestyle.

Located 8 minutes from Charlottetown in the pastoral landscape of Cornwall we are both rural in feel and close in geography.

Architecturally designed our facility is welcoming for the horse lover and the non-horse lover alike.

What can horses do for you?

Apart from the physical benefits of horseback riding (burning 5 calories a minute, increased balance, core strength, coordination and flexibility) people who work with horses also learn: leadership, assertiveness, empathy, self-esteem, responsibility, communication, team work, accountability, control, boundaries and self-confidence among other things.

We learn these skills to work safely and effectively with our horses.

At HJC we offer programs which meet the needs of people today, we are not a show barn.

Corporate events, ladies nights, family events and birthday parties can be accommodated while we also work very closely with youth as young as 9 and targeted groups to deliver relevant programs.

We welcome your inquiries into what horses can do for you and will be more than happy to help point you in the right direction.

Fall, Winter and Spring Riding:

At HJC we keep riding year round, changing our schedule to meet your needs.

Our indoor arena allows for evening lessons after school or work while our heated viewing room allows for a comfortable space for parents\interested parties to watch.

We are in full swing during the weekend opening at 10:00 a.m. and closing at 4:00 both Saturday and Sunday.

Book your free information session today and come see what HJC can offer you this year!
